All -

Please do not forget to submit their safety brief information for September.

Several things,

1. Make sure all personnel that has anything to do with aircraft (it is preferred that all CAP personnel) watch the ground handling video. See link at the end of this email.
2. Just another reminder that school is back in session. Remind all members to be extra careful during school times.
3. Halloween is quickly approaching and everyone, cadets and seniors, need to be extra alert during Halloween.

Safety Officers -

October is the month that all squadrons need to hold there Safety Down Day. One meeting during the month of October needs to just about safety. I encourage you to enlist other personnel (seniors and cadets) to assist you if presenting safety topics during this meeting. This Safety Down Day has to be reported to Wing.
